

# A World of Our Own

## Surface

Somewhere a dream away  
There is a better place, a brighter day  
Somewhere that's safe, somewhere that's free  
Where we can be togetherSo just close your eyes and let me take you there  
To somewhere only dreamers ever go  
It won't be just a fantasy (Oh no)  
If you believe with me  
The two of us all alone  
In a world of our ownA world of our own  
Where we know we belong  
A world of our own  
Where love is sure and strong can never die  
And lovers never say goodbyeSomeday a light will shine  
And there will come a time  
That's yours and mine  
A time so sweet  
So clear and true  
We'll see right to foreverSo just close your eyes and let me take you there  
To somewhere only dreamers ever go  
It won't be just a fantasy (Oh no)  
If you believe with me  
The two of us all alone  
In a world of our ownA world of our own  
Where we know we belong  
A world of our own (A world of our own)  
Where love is sure and strong can never die  
And lovers never say goodbyeSo wrap your arms around me  
And we'll leave it all behind  
We'll go where no one else will ever find usSo just close your eyes and let me take you thereIt won't be just a  
fantasy (Oh no)  
If you believe with me  
We can make it come true (True if you'll be there)  
Just by loving each other (Loving each other)  
The two of us all alone in a world of our ownA world of our own  
Where we know we belong  
A world of our own (A world of our own)  
Where love is sure and strong can never die  
And you and I won't ever say goodbye
