Even Angels

Fantasia

I'm driving in circles
Should have bought that new phone
I can't find my way to
All the places I call homeI'm
(On my own)
I'm at the station pumping gas
Yea, I'm taking out the trash, I'm
(All alone)And whose there
Whose there?Since you been gone
I learned how to move on
How to be myself
I don't need nobody's helpI'm doing so good
I forgot that I could
Live like this, ohhFirst step, take a deep breath
You don't need a reason why, you can, you can
Take take time, you can, you can
Walk, run, dive, close call
Think you might fall but all you gotta do is try
Even angels, even angels learn to flyComing home in this late night
Should have left the lights on
I can't help but image all the things
That could go wrongI'm
(On my own)
I'm in the kitchen on the chair
Reaching for the top shelf, I'm
(All alone)And I'm okay
I'm alrightSince you been gone
I learned how to move on
How to be myself
I don't need nobody's helpI'm doing so good
I forgot that I could
Live like this, ohhFirst step, take a deep breath
You don't need a reason why, you can, you can
Take take time, you can, you can
Walk, run, dive, close call
Think you might fall but all you gotta do is try
Even angels, even angels learn to flyEveryday I'm stronger
It can't get better if it, if it
Don't hurt

Why? Why?
(Ooh, why?)See me in my next life
Heartbreak's a teacher
And now, I love, ah, love, ah
Little bit deeper
Why? Oh why?
(Oh, why?)First step, take a deep breath
You don't need a reason why, you can, you can
Take take time, you can, you can
Walk, run, dive, close call
Think you might fall but all you gotta do is try
Even angels, even angels learn to flyFly, fly, fly, flyFirst step, take a deep breath
You don't need a reason why, you can, you can
Take take time, you can, you can
Walk, run, dive, close call
Think you might fall but all you gotta do is try
Even angels, even angels learn to flyFirst step, take a deep breath
You don't need a reason why, you can, you can
Take take time, you can, you can
Walk, run, dive, close call
Think you might fall but all you gotta do is try
Even angels, even angels learn to flyFirst step, take a deep breath
You don't need a reason why, you can, you can
Take take time, you can, you can
Walk, run, dive, close call
Think you might fall but all you gotta do is try
Even angels, even angels learn to fly
