10 Seconds to Go

Social Code

I watched you dance from across the room
you got my motor running driving me though the roof
oh the time is right I'm telling you
Take my hand
What have you got to lose?10 seconds to go
No time to take it slow
Come on, come on, come on now baby lets roll
Come on get up
It's what you wanna do
Come on baby I really wanna dance with you
Don't make me beg I wanna see you moveI pull you close I play it cool
I hold you tight cause tonight we're b-b-breaking the rules
oh the time is right I'm telling you
Take my hand
What have you got to lose?10 seconds to go
No time to take it slow
Come on, come on, come on now baby lets roll
Come on get up
It's what you wanna do
Come on baby I really wanna dance with you
Don't make me beg I wanna see you moveWhen I look into your eyes I wonder if you'll come with me tonight
Or was this your one night, one chance, one time romance dance
I have a place where we can go and be alone
Give me the green light honey; we'll hit the road.10 seconds to go
No time to take it slow
Come on, come on, come on now baby lets roll
Come on get up
It's what you wanna do
Come on baby I really wanna dance with you
Don't make me beg I wanna see you move
I really wanna dance with you
Come on get up
It's what you wanna do
Come on baby I really wanna dance with you
Don't make me beg I wanna see you move
