

In My Dreams

David Crosby

Look at those dancers gliding around
Seems if their feet
Don't hardly touch the ground Look at them smiling
Like they knew one another
And they never would come down Turn around and hold me
I'd like to see your face alone
I'm hoping there's someone home I'd like to meet you
Who do you see?
Introduce yourself to
Whichever of me is nearby Close behind your eyes
You're laughing at me
And I'm stuck here with no instructions
That I can see to steer by Stick around it's tricky ground
I'd like to see your face alone
I'm hoping there's someone home Two or three people fading in and out
Like a radio station that I'm thinking about
But I can't hear Who gets breakfast? Who gets the lunch?
Who gets to be the boss of this bunch?
Who will steer? Turning, turning
To see your face alone
I'm hoping there's someone home Dream
Do you dream
Dreaming
Do you? Dream
Do you dream
Dreaming
Do you? In my dreams
I can see, I can
I can see a love
That could be In my dreams
I can see, I can
I can see a love
That could be Ba, ba, da, da
Ah, ah In my dreams
I can see, I can
I can see a love
That could be In my dreams
I can see, I can
I can see a love

That could be In my dreams
I can see, I can
I can see a love
That could be In my dreams
I can see, I can
I can see a love
