

Fire

The Naked Brothers Band

(verse 1)

How could you be so unclear
why didnt you stick to us near
now your lost and on your own
at 0,30 it here her moan

(pre chorus)

how could you leave the beautiful gold
why did you not realize that it would be gone

(chorus)

you played with fire and you got burned
you played with fire and you got burned
you played with fire and you got burned

(verse 2)

now the gift is gone
now your on your own
wish you knew it was wrong
wish you knew it was wrong

(verse 3)

if you are so insecure
every battle meant to war
you have dug yourself a hole
lost your heart and sold your soul

(pre chorus)

how could you leave the beautiful gold
why did you not realize that it would be gone

(chorus)

you played with fire and you got burned
you played with fire and you got burned
you played with fire and you got burned

(music)

you played with fire and you got burned
