

# Carl Sagan

## Night Moves

I'm a fool in repeating my plans and a fools right calling my name  
I'm a fool to relate to you with all the things I do and say  
Am I a fool to ignore them?  
How else shall I go on?  
Am I a fool to expect that someday I'm gonna be gone?  
Oh you've been around  
Oh you've seen  
Oh you've been around  
Slowly turning  
Feels right cause it seems right  
And it feels right cause it is right  
How long you gonna call my name?  
How long you gonna feel this way?  
Oh feels lying a perception of a view that causes calm  
Oh hunger lives in a game when a family dead and gone  
Well am I a fool to ignore them?  
But how else shall I go on?  
Am I fool to expect that someday I'm gonna be gone?  
Oh you've been around  
Oh you've seen  
Oh you've been around  
Slowly turning  
Feels right cause it seems right  
And it feels right cause it is right  
How long you gonna call my name?  
How long you gonna feel this way?  
Oh you've been around  
Oh you've seen  
Oh you've been around  
Slowly hurting...
