

One Love

Jordan Pruitt

Something 'bout the way you move when you move
That I love, love, love
Something 'bout the way you talk when you talk
That I can't get enough Oh, the way you say it's a beautiful day
When the rain comes down down down
And I don't care if we don't go nowhere
As long as your around, 'round, 'round No one gonna break our style
We walk from side to side
We ride we ride, oh Some say maybe this one, maybe that one
Never sure of the one they depend on
I see you're the right one
Baby come carry me away, oh One love, one love, one love
One love that I'm sure of
One love, one love, one love
Yeah, that I can't get enough of That I can't get enough of
One love that I'm sure of, ooh yeah Every time you look at me and smile I like your smile
My heart go boom, boom, boom
Anytime you're not around and I'm in a cry
It feels like an empty room And when the music's playing you grab me, hold me
And we sway, sway, sway
And even when I'm wrong you til me that I'm right
And it's okay, okay, okay No one gonna break our style
We walk from side to side
We ride we ride, ooh yeah Some say maybe this one, maybe that one
Never sure of the one they depend on
I see you're the right one baby come carry me away, oh One love, one love, one love
One love that I'm sure of
One love, one love, one love
That I can't get enough of Some get 'em for the money, some get 'em for the things
Some play it like a game just because they can
I'm in it 'cause I wanna be, boy you are making me
Stay with me, baby you know, oh Some say maybe this one, maybe that one
Never sure of the one they depend on
I see you're the right one baby come carry me away, yeah One love, one love, one love
One love, one love
One love, one love, one love
One love One love, one love, one love
(One love, ooh yeah)
One love I can't get enough of

One love, one love that I'm sure of
