Dealt the Cruel Hand

Allegiance

Real life testing of an unborn child
Except the side effects are anything but mild
The effects of a drug are not known until now
Except the human guinea pigs, will suffer anyhowDealt the cruel hand - born without a chance
Dealt the cruel hand - victim of circumstance
Dealt the cruel hand - one life to be
Dealt the cruel hand - you'll be left in miseryOne hand ties, one eye blind
One step behind, a cover up disguise
One life to be, one's life deceived
Ones pain to me has been lost in pityDealt the cruel hand - born without a chance
Dealt the cruel hand - victim of circumstance
Dealt the cruel hand - one life can be
Dealt the cruel hand - you'll be left in miseryFalse start to a life, that's taken a wrong course
Unknowingly inflict the pain and left to take the blame
The damaged has been done, a record of effect
Experiment or our own, compassion to the testDealt the cruel hand - born without a chance
Dealt the cruel hand - victim of circumstance
Dealt the cruel hand - one life deceived
Dealt the cruel hand - you'll be left in misery
