My Last Day With You Friend

Worn-Tin

My Last Day With You Friend

(1st Verse)

My fingers are tongue-tied and my heart is a whole

And my brain was the captain when my heart was gone

And then I would see

The Clouds that built a storm inside of me

And now that theyâ€™re gone, I think its either way

(2nd Verse)

Lately last November I came to you and said

Letâ€™s hit the road and put our old worries to bed

And then you would see

All you have to do is set them free

And now that theyâ€™re gone I think that I will shout... and try again

(3rd Verse)

All this talk about how time moves fast

I hate to say that this may be my last day with you friend

Iâ€™ll keep a piece of you inside my head

But I canâ€™t think about those days no more

(Harmonica Solo)
