Doubelievengod

Natas

I never ever believed I've been deceived like adam & eve
My thoughts bust to make my mind bleed
In god you trust but in god I bust caps
To peel caps and fill bloody naps bitch
You wanna go to hell or heaven?
I got the 3-5-7 pointed at cha so ya better pray
Before ya life gets takin away
Before the bullet hits ya dome all I have to say
Is do you believe? nigga

Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to

Do you believe in god nigga?
Who is god where is god?
Do you believe in god?
Where is god who is god?

Picked up the bible and burnt my hands
1-8-7 at the church dead body needs an ambulance
The unforgetable medication, the masturbation
Premature ejaculation, premeditation
Murder meditation deep
Niggas sleep so I creep my crew rolls 6 feet deep
Blaz4me sacreligious to this religious figure
And I'm the wrong nigga
So do you believe?

Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to

Do you believe in god?
I don't know what this world is comin to

Do you believe in god, do you believe in god?
Do you believe in god, do you believe in god?
Do you believe in god, do you believe in god?
Do you believe in god, do you believe in god?

Some might wonder what god is, some say god is man
Some say god is space & time...I say this

Tell me
Do you believe in god?
I think it is odd
I'd rather be dead underground covered in sod
When I walk the earth, walk this way
Leavin you in dismay
There they lay to stay you better pray
People dyin outside my town, homicide surrounds the block of suicide
Where I live both worlds collide
I'ma chop that image of your god up
Only a reel life product connects you
Do you believe in god?

Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to

Do you believe nigga? that's right I said do you believe?
So you believe in god nigga?
Don't ask me ask yo self, motherfucker motherfucker

Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to
Do you believe in god?
I don't know what this world is comin to
