

It's a-Coming

Natalie Merchant

It's a-coming Wild fires, dying leaves (?)
Landslides, hurricanes
Apocalypse in store like nothing ever seen before It's a-coming Third generation refugees (?)
Take my burning effigies (?)
Revolution, civil war, like
Nothing ever seen before Yeah, it's a-coming Pale, lost and ----
Wasted by the morning sun
Tell the ---- he can see (?)
---- ---- ---- It's a-coming...
It's gonna come Jungle slashed and jungle burned
Monkeys and the painted birds
---- ---- ----
---- ---- whole world grieve It's a-coming All the ones that fail to thrive (?)
Starved out and burned alive (?)
Something evil, something fiend (?)
Calamity It's gonna come ---- ---- the old Cold War
Atom Bomb's gonna settle the score
You wait and see It's a long time coming
But it's a-coming
It's gonna come Third generation refugees (?)
Take my burning effigies (?)
Revolution, civil war, like
Like nothing ever seen before
Like nothing ever seen before
