

11:11

Jordin Sparks

[Verse 1]

It's 11:11 and the world is windin' down
Thinkin' damn, I could use a shooting star right now
I wish I was perfect enough for you, I wish I was flawless, just like you
I wish I was sane enough, but I'm just crazy, baby[Hook]

Crazy for you

Crazy for you

Can you play me? Will you save me?

Lookin' at you makes me weak

Could you help me? Would you tell me?

You don't want nobody else but me

I wish you were (already mine, already mine)

I wish you were (already mine, already mine)

Just gotta hear you one time

Just gotta hear you one time

I wish you were, already mine[Verse 2]

Now it's 11 past 12, I keep lookin' at my caller ID

But you ain't even got my number, why the hell would you be callin' me?

I wish you were closer, closer to me, and if I would grow, can be all I need

Maybe you noticed, and seen me, call me crazy, baby[Hook]
