

# I Won't Bite My Tongue

Kandi

You stood there thinkin' you were all that and I did too  
You took too long to step to me, so I just step to you  
We talked all night about all that you could do  
If I could've foreseen what's behind those jeans  
Oh, I'da never talked to you 'Cause damn, I thought you'd be packin'  
And damn, I thought you'd put your back in it  
Damn, no you didn't, so you're finished  
And I gotta let you know 'cause you gotta lose my number Damn you had the worst sex  
And damn, you didn't last a second  
Damn no, you didn't, so you're finished  
And I gotta let you go I won't bite my tongue  
The 'd' wasn't good so you can't get none  
Our first will be our last  
The 'd' was trash, sorry ass and ya need to know I won't bite my tongue  
The 'd' wasn't good so you can't get none  
Our first will be our last  
The 'd' was trash, sorry ass and ya need to know Don't kid yourself, baby, I'm not impressed  
You talk too much, couldn't back it up  
And your stroke was just a mess, I won't bite my tongue  
'Cause you said that I would be sprung  
I can't tell what'cha did to me 'cause before I got mine you were done 'Cause damn, I thought you'd be packin'  
And damn, I thought you'd put your back in it  
Damn, no you didn't, so you're finished  
And I gotta let you know 'cause you gotta lose my number Damn you had the worst sex  
And damn, you didn't last a second  
Damn no, you didn't, so you're finished  
And I gotta let you go I won't bite my tongue  
The 'd' wasn't good so you can't get none  
Our first will be our last  
The 'd' was trash, sorry ass and ya need to know Before you take me, oh baby  
Make sure that you know  
How to make me, fulfill me  
If not, don't you come my way  
Oh no, oh no I won't bite my tongue  
The 'd' wasn't good so you can't get none  
Our first will be our last  
The 'd' was trash, sorry ass and ya need to know
