The Fight

[The Classic Crime](#)

Would you go to war for me, baby?
Would you cry for the weak
And die for the peace of men?Oh, how can we know?
You and I both know
So let's make this boatload
Of excuses burn and singOne day it all comes down to this
You can sink or swim, you can handle this
One day it all comes down
One day we all go downI'll take my heart back
And set the people free
I'll leave the dead to die
And take what's coming with meI'll take my heart back
And set the people free
I'll leave the dead to die
And take what's coming with meStep back for all the world to see
Your life means all the world to me
I'll take your pain and suffering
But I'm such a sucker sometimesSometimes we don't know
So plug up those bullet holes
Oh, you feel so close
Don't let go until I sayOne day we'll drink to this and say
Remember when we died
We went out in flamesOne day we'll drink to this and say
Remember when we died
We went outI'll take my heart back
And set the people free
I'll leave the dead to die
And take what's coming with meI'll take my heart back
And set the people free
I'll leave the dead to die
There will be blood in the streets[Incomprehensible]I'll take my heart back
And set the people free
I'll leave the dead to die
And take what's coming with meI'll take my heart back
And set the people free
I'll leave the dead to die
And take what's coming
And take what's coming with me
