Fighting On

The Pfeifers

Weight of the world
Each have to carry their own
Nothing's for certain
But to carry your own

From the first birth of life
Till our final last breath
You never thought we could make it this far
We don't stop, we keep fighting on

Wandering in circles
Motivated by fear
Searching for answers
They're right in front of you

From the first birth of life
Till our final last breath
You never thought that you could make it this far
We don't stop, we keep fighting on

I can promise you I'll carry on
My time is now
I can promise you I'll carry on
My time is now

From the first birth of life
Till our final last breath
You never thought that you could make it this far
We don't stop, we keep fighting on

From the first birth of life
Till our final last breath
You never thought you could make it
But we carry our own

From the first birth of life
Till our final last breath
You never thought you could make it
But we carry our own

From the first birth of life
Till our final last breath
You never thought we could make it
But we carry our own

From the first birth of life
Till our final last breath
You never thought we could make it
But we carry our own
