

Travelling Light

Willemijn May

stop wait, can you give me time
hold on, can you let me speak my mind
press stop, can we just hit rewindcause i'm trying
yes i'm tryingbut then the air gets heavy
and the clouds are closing in
I can feel it coming
but it's not what i'm wantingso you maybe so you might
does it matter who is wrong or right
i'm gonna give up the fight
give up the fight now
call it day or call it night
i'll be leaving it behind
this timecause
i'm travelling light
travelling lightstay calm, we can talk it out
speak up, let me know what's going on
work out, what it's all aboutcause i'm trying
and i'll keep on tryingbut then the air gets heavy
and the clouds are closing in
I can feel it coming
but it's not what i'm wantingso you maybe so you might
does it matter who is wrong or right
i'm gonna give up the fight
give up the fight now
call it day or call it night
i'll be leaving it behind
this timecause
i'm travelling light
travelling light
