

Voices Of The Future

Nu Flavor

oooo oo oooo oo oooo....

The voices of the future
are the voices of the past
the voices that were saying
that it would never last
they say that it was evil
just a passing fair
the music of the devil
it surely must be bad

ah ah ah ah... (many times)

(voices speaking)

And all we ever tired to say
is help us find away, away
away, away, away
