

By the Edge of God

Nomy

You really tried it now
To stand this life
But now you don't need to It's really hurting me
When I think of you
I'm waiting for answers So I ask you
My savior
What do you want from me now Because I gave all
To keep her
You put me here just to fall
And now you are making it hard But I said No, My god,
I'm trying to live for you, You're making it hard, to give
What do you want from me, If only I could knew,
What you held inside,
If I could be there with you. If only I could see,
What you once saw,
All that would kill me. So I ask you,
My savior,
What do you want from me now, I gave you all,
Heavenly father,
What can you take from me now,
You are making it hard. But I said No, My God
I'm trying to live for you
You're making it hard, to give
What do you want from me, I'm standing by the edge of God
I want my redemption I'm trying to be close to you
Beyond resurrection I'm standing by the edge of god
I'm standing by the end of my time
Save me from what I've become
Save me from what I have just done But I said No, My God
I'm trying to live for you
You're making it hard, to give
What do you want from me I'm standing by the edge of god
I'm standing by the end of my time
Save me from what I've become
Save me from what I have just done.
