War

Knoc-turn'al

Fear no man or no motherfucking clan, nigga
Fear no mob, fear nothing but God
Ya know, I walk through the shadows
And ride through the valley of death
I will fear not because I am evil
It's like a jungle sometimes
It makes me wonder how I keep from going under
It's like a jungle sometimes
It makes me wonder how I keep from going under
It's like a jungle sometimes
It makes me wonder how I keep from going under
It's like a jungle sometimes
It makes me wonder how I keep from going under
I thought we declared peace in the Middle East
How the fuck we got beef in the Middle East
Nigga, this is in the temperate stretch
It's a motherfucking promise you will never forget
I'ma send the statue of liberty back to France in a body bag
Broke it in half, you fucking fag
Introduce you to this mack, come on, meet this A.K
Whatever gun I got at hand I'm gon' spray
I'ma live my life
(However I want to)
I'ma hustle day and night
(However I want to)
I'ma stay on the grind
(However I want to)
I'ma keep getting mine
(However I want to)
Spend money on the trip
(However I want to)
Make the six-tray dip
(However I want to)
I'ma fuck that bitch
(However I want to)
I'ma keep getting rich
(However I want to)
I don't respect presidents unless he dead
They can feed my wife and daughter and keep the homies fed

Stay on top of game and dodge the feds
No bullshit involved, no politics
I put in work while you pop your lips
I ride for this, a soldier in this bitch, nigga
You can tell G. W. Bush
That he need to get some head and smoke some cush
I'ma live my life
(However I want to)
I'ma hustle day and night
(However I want to)
I'ma stay on the grind
(However I want to)
I'ma keep getting mine
(However I want to)
Spend money on the trip
(However I want to)
Make the six-tray dip
(However I want to)
I'ma fuck that bitch
(However I want to)
I'ma keep getting rich
(However I want to)
{In the White House, caution is the operative word
Following the developments in Baghdad
U.S officials say they welcome the event in the capital
But there is no jubilation, [Incomprehensible]}
{A powerful snapshot but with the celebration
Came a challenge for the White House
Determined to make clear, down does not mean out
And the war is hardly over}
{There may well be fighting yet ahead
Regime forces are still in control
In Northern Iraq, in Mosul, Karkuk and Tikrit}
{Yet with the caution came a small dose of ?we told you so?
In the early days of the war the plan was criticized
By retired military officers embedded in T.V. studios}
Ooh yeah
