

Live To Rise

Soundgarden

What if all you understand,
Could fit into the center of our hand,
Then you found it wasn't you,
Who held the sum of everything you knew,
Were in sync but not alone,
You hold on,
And they're gone,
Like the sun we will live to rise,
Like the sun we will live and die,
And then ignite again,
Like the sun we will live to rise,
(Oh Yeah)

What if the one thing that I missed,
Was everything I need to pass the test,
And if I fail what happens then,
Can I still count on you as a friend,

Were in sync but not alone,
You hold on,
And they're gone,
Like the sun we will live to rise,
Like the sun we will live and die,
And then ignite again,
Like the sun we will live to rise,
(Oh Yeah x4)

Like the sun we will live to rise,
Like the sun we will live and die,
And then ignite again,
Like the sun we will live to rise,
Like the sun we will live and die,
And then ignite again,
Like the sun we will live to rise,
(Oh Yeah x2)
