

# Ghetto

P.o.d.

I believe, that this world believes in love

I believe, that this world believes in love

Love

We might never really agree

On anything about the lives we live

Between you and me, so differently

We don't always see things the same

We should agree to disagree

If we meet at love we can work it out

I believe, you and I will overcome

I believe, you and I believe in love

Love

Whether you think I'm so confused

Or if you feel the way I do

So don't give in to this hate within

Living in this world of pain

Don't let it bring you down

The world is a ghetto

The world is a ghetto

And the world is a ghetto

(Ghetto ghetto)

And The world is a ghetto

(Ghetto ghetto)

And The world is a ghetto

(Ghetto ghetto)

And the world is a ghetto

I believe that this world believes in love

(I believe)

You and I believe in love

Love
