

Baby Said

Hot Chip

Do do do, do do do
My baby said she wanted some action
I said baby, I can't give you that
I'm a simple man
My baby said she wanted adventure
I said baby, the outside world's not safe
We should sit down
My baby said she wanted some action
I said baby, I can't give you that
I'm a simple man
My baby said she wanted adventure
I said baby, the outside world's not safe
We should sit down
I read all the time about how they fly
Like children my mind is filled with playtime
But why must I go out into the cold?
My life is inside, we're safe, we can hide
I read all the time about how they fly
Like children my mind is filled with playtime
But why must I go out into the cold?
My life is inside, we're safe, we can hide
My baby said she wanted some action
I said baby, I can't give you that
I'm a simple man
My baby said she wanted adventure
I said baby, the outside world's not safe
We should sit down
My baby said she wanted some action
I said baby, I can't give you that
I'm a simple man
My baby said she wanted adventure
I said baby, the outside world's not safe
We should sit down
