

# Illuminati

## Fatboy Slim (featuring Bootsy Collins)

I can't believe what's happening  
Where is your self control  
Why can't you just be honest  
The corruption takes its toll  
You rape our hope  
Too proud to cope  
You built this house of shame  
You smile, you gloat  
This disease you promote  
An infection is what we are now  
I can't believe this happened  
The fear starts to grab hold  
Then anger starts to take over  
I will not be controlled  
You rape our hope  
Too proud to cope  
You built this house of shame  
You smile, you gloat  
This disease you promote  
An infection is what we are now

They're taking over now  
Eating up our souls somehow  
Taking over now  
Parasites, they run around  
The culprits won't be found  
They lie behind this mask of wealth  
They're taking over now  
Illuminati they hide  
You rape our hope  
Too proud to cope  
You built this house of shame  
You smile, you gloat  
This disease you promote  
An infection is what we are now  
You rape our hope  
Too proud to cope  
You built this house of shame  
You smile, you gloat

This disease you promote  
An infection is what we are now
