

# Fade Away

## Intergalactic Lovers

Meet me down by the old, old tree  
Where you can be you  
And I will be me  
Forget everything that once was said  
Dry your eyes and rest your head  
Remember a time, when we used to smileI..Hear you crying in your sleep  
Fighting demons that I can not reach  
Wish I could kiss your fears away  
Just believe my baby, that they will fade away  
they will fade away (x2)  
They will fade away  
They will fade away
