

Closer

Mexicolas

You're the living proof
You're the living proof
And I want to see you
So move a bit closer now
Just move a bit closer now
I don't want to wait, please don't make me wait
I just want to see you
So move a bit closer now
Just move a bit closer now

'Cause I will suffocate in here
Without you near
And I would suffocate
In you

I won't make a scene
I won't make a scene
I just want to see you
So move a bit closer now
Just move a bit closer now
'Cause if I made you break, then I'm gonna fix you.
So move a bit closer now
Just move a bit closer now

'Cause I will suffocate in here
Without you near
And I would suffocate
In you
If you want me to
And I would suffocate in you
In you
In you
Closer

Just move a bit closer
Move a bit closer
Just move a bit closer

You're the living proof
You're the living proof
And I want to see you
