Sweet Mystery

Guardian

Looking back at my old school
I think of the things I used to do
And I remember those crazy days gone by
Sometimes I wish I could go back in time, I'd be changing what was then
But after everything's been said and done I'm glad you are my friendAnd it's a sweet mystery
That you love me like you do
Oh, it's a sweet mystery to meLittle boy that my mamma knew Became a full grown man
I live my life like you taught me to
You know I try the best I can
And your tender love is so much more than the naked eye could see
When my daddy said I love you boy, you know it meant the world to meAnd it's a sweet mystery
That you love me like you do
Oh, it's a sweet mystery to me
