The Only Way (Album Version)

Freak Kitchen

You should be welcome now
to our show today
It's society
In a modern wayFollow everything I say
With your safety in mind
Know that we're the only way
To a place where the blind leads the blindThe more I see
Of life in the special way
Where the will to live
Breaks down from day to dayThe more I'm sure
I'm stuck in big charade
Where everyone
Is dying to be displayed
And when I notify
That they can't understand my mind
'cause there's a doubt
I raise my head up high
I'm breaking out because I know it's blindFollow everything I say
With your safety in mind
Know that we're the only way
To a place where the blind leads the blindThe man behind the mirror
Hides the truth
Where it's always been like that
The man behind the mirror
Hides the truthFollow everything I say
With your safety in mind
Know that we're the only way
To a place where the blind leads the blind
Follow everything I say
With your safety in mind
Know that we're the only way
To a place where the blind leads the blindFollow everything I say
With your safety in mind
Know that we're the only way
To a place where the blind leads the blindFought on everything I say
When you're taking mine
Know that we're the only way
