

# Desert Plains

## Judas Priest

Full moon is rising, the sky is black  
I need your call I'm coming back  
The road is straight cast, wind's in my eyes  
The engine roars between my thighs From desert plains I bring you love  
From desert plains I bring you love Wild mountain thunder, echoes my quest  
My body aches but I'll not rest  
Quartz light to guide me, till sunrise leads  
My passion screams, my heart it bleeds From desert plains I bring you love  
From desert plains I bring you love Then in the distance, I see you stand  
On the horizon you raise your hand  
In burning rubber, I end my quest  
You fall into my arms at last From desert plains I bring you love  
From desert plains I bring you love  
From desert plains, I'll bring you love  
From desert plains, I'll bring you love
