

# Dead to the World

## Stigmata

(Verse)

I have died a hundred times before  
Your words have ripped out my insides  
I find revenge within my soul  
I've tried a thousand times before  
To leave my demons behind me for good  
I'm trapped with no escape to find

(Chorus)

Lost without hope  
Hope is now lost  
As I hang on for one more tomorrow  
Heart turn to black  
I'm not coming back  
I know I can't last  
'Cause I feel like I'm dead to the world  
Feel like I'm dead to the world

(Verse)

I've craved the feel of your caress  
No chance to hold you or hurt you again  
I've gone way too far this time (time)  
Too far this time  
I craved the sound of your distress  
I loved to take out my failures on you

I'm not the old forgiving kind

(Chorus)

Lost without hope  
Hope is now lost  
As I hang on for one more tomorrow  
Heart turn to black  
I'm not coming back  
I know I can't last  
'Cause I feel like I'm dead to the world  
I feel like I'm dead to the world  
I feel like I'm dead to the world  
I'm dead to you and you're dead to me

(Verse)

Seems like the gods are punishing me  
Shackled in chains I just can't break free

Hands around my throat tighten the grip  
Bound by my sins so my wings have been clipped  
I'm paying the price, I'm doing the time  
Serving my sentence for doing the time  
So show me the heavens or drag me to hell  
This story is over, I bid you farewell  
I bid you farewell, now drag me to hell
