

Who Is Gonna Save Us?

Miami Horror

who've we got to save us?
when it's done who've we got to save us?
when it's gone who've we got to save us?
when it's gone who've we got to save us?
when it's done when it's done when it's done who've we got to save us, when no
why'd we have to take when theres nothing left but flames
we all streched out and find our ties
we are waiting for you
waiting for the sun
who've we got to save us?
when the wind
and the seas turn on us who've we got to save us?
when the whistling
becomes a howl
and the memories
will fall
and the suns
have gone and we gods have been undone
they are waiting for you
waiting for
a sign who've we got to save us?
when its gone when its gone
who've we got to save us?
when its gone when its gone who've we got to save us?
when its gone please don't be long
we can't move on
