

# The Kids Will Get the Money

## Something for Kate

You're taken all that you could get  
you're grinning like a fugitive  
and everything's been going right for you  
you drag me by the collar  
been dancing like a liar  
I follow in your empty footsteps you're never gonna put the blood  
back wherever it came from  
you're sleeping like a baby  
you're sleeping like a baby  
you're sleeping like a baby  
you're sleeping like a baby  
right before my very eyes...  
the pride and the vanity  
the blank cheques for sympathy  
you're sleeping like a baby  
it doesn't matter what you do  
there's one thing you know is true  
you're so unlike everyone like you you're sleeping like a baby  
you're sleeping like a baby  
you're sleeping like a baby the kids will get the money  
the kids will get the money  
the kids will get the money  
right before your very eyes  
right before your very eyes  
right before your very eyes the kids will get the money  
the kids will get the money  
the kids will...
