Hey old man, got something for you
If you change your mind
Gonna make you take it
Your mistake is something you own
I'm the one who's gonna take it Hey old man, got something for you
Hey old man, got a real good tip
Something's wrong and you don't know it When will you learn?
I'm not your boy
You don't look back
Why do I pick up your slack? That's just fine, just leave it like that
Bust your wallet while I break my back
Save your life with your life support
You know me, I'll pick up that Hey old man, got something for you
Hey old man, got a real good tip
Something's wrong and I guess you've blown it
Thanks a lot 'coz now I own it When will you learn?
I'm not your boy
You don't look back
Why do I pick up your slack? When will you learn?
I'm not your boy
You don't look back
Why do I pick up your slack? Will she pay my debts?
Got your picture in my hands
God, you are so truly old
Thanks a lot, my future is sold When will you learn?
I'm not your boy
When will you learn?
I'm not your boy Hey old man, got something for you
Hey old man, got a real good tip
Hey old man, got something for you
Hey old man, got a real good tip
