Street Light

The Artichokes

Aye baby before you put your clothes back on
I wanna tell you somethin'
You done somethin' in your life that I ain't done before
That's fucked a millionaire
'Cause shawty you hotter than the street light
You wanna get did right
Come on and get on it
I wanna know what's making you horny
'Cause shawty you hotter than the street light
You wanna get did right
Come on and get on it
I wanna know what's making you horny
She never seen me a day in her life
All she know my money look right
Young street nigga sippin' on yak
Yeah, she see the swagg plus she see the ice
Sittin' in the Chevy listing to the pipes
Passion co goon nigga life
Niggas wish for it but this is my life
She walk real stank that's what I like
Jeans stickin' to her pussy look rite
She get in this whip ain't no comin' back
'Cause I'm pretty sure I got what you like
I can't even front you, hotter than the street light
'Cause shawty you hotter than the street light
You wanna get did right
Come on and get on it
I wanna know what's making you horny
'Cause shawty you hotter than the street light
You wanna get did right
Come on and get on it
I wanna know what's making you horny
She say she don't fuck with broke niggas I said me too
My money been straight what about you
'Cause if you broke I don't need to fuck with you
Bullshit never make dreams come true

You say your man at work, baby what he do?
He answer phones for a livin' ain't that cute

I'm in the streets with a nine and he wearin' suits
Before he fuck you do he finger you and eat you
You got the potential babe to be my boo
And 'bout thirty minutes I can get you loose
Make you nut twice before I shoot
You hotta than the street lite, to tell you the truth
'Cause shawty you hotter than the street light
You wanna get did right
Come on and get on it
I wanna know what's making you horny
'Cause shawty you hotter than the street light
You wanna get did right
Come on and get on it
I wanna know what's making you horny
Soon as you called me you begged me to come over there
But you know that you nigga is at home
And it's gonna be some shit if I appear
And you know there ain't no fears so come on baby be for real
I'm sure that your nigga go carry on we can stop puttin' on
And I'ma have to take it there
As soon as the street lights come on I'ma come get ya
As soon as the streetlights come on I'ma come see ya
As soon as the streetlights come on I'ma come getcha
As soon as the streetlights come on I'ma come see ya
'Cause shawty you hotter than the street light
You wanna get did right
Come on and get on it
I wanna know what's making you horny
'Cause shawty you hotter than the street light
You wanna get did right
Come on and get on it
I wanna know what's making you horny
