Speed of Light

Tesla Boy

I feel like
We have met before
And you said
No
You hear my
Voice inside your head
You see my
Milky silhouetteBack where I live
I travel stars, stars
Take chance to go
For a ride
For a ride to MarsI'm glad I
Fallen down to Earth
But noone
Knows
You dazed with
Almond-looking eyes
But siren
CriesBack where I live
I travel stars, stars
Take chance to go
For a ride
For a ride to MarsMy mind is still open wide
You set me up for a ride
They will not take me alive
We travel
With speed of light
