

Forever Love (Afrojack Remix)

Robin Thicke

Verse 1:I cant carry the weight around baby

How could I have ever belonged

Learning all my lessons

Dangerous impressions

Pushed you right out of my world

I know that you and I have tried very hard to find a different result

But how could we be patient, when were always racing

And no one's ever there to holdAnytime you need you a friend baby

I will be the one that you want

And if you ever down and out baby

I will be there pickin' you up

And you can lean on me anytime baby

For anything you want and need

Oh I don't need a reason

Memory or a season

Its longer than always could be

and furher than the eyes can seeChorus:

Forever love

Oh forever love

Forever mine, forever yours

Forever love

Forever love

Oh it's forever love

Forever mine, forever yours

Forever love, Forever loveVerse 2:

Impossible, impossible

Its possible, anything's possibleSo come on over baby start the healing

Let me get a good look at you

Cause i miss our discussion

Whispering and blushing

Secrets that only we knowAny time you need a friend baby

I can be the one that you want

And if you're ever down and out baby

I can be the one that you want

You can lean on me anytime baby

For anything you want and need

Oh I don't need a reason

Memory or a season

Everyday I will believe

That you and I were meant to beChorus:

 Forever love

 Oh forever love

 Forever mine, forever yours

 Forever love

 Forever love

 Oh it's forever love

 Forever mine, forever yours

 Forever loveVerse 3:

 When you're broken

 Where you're blind

And you need someone to show you the light

 I'll be right there baby

 Holding you tight

 Cause if you ever need a friend baby

I can be the one that you wantAnd if you're ever down and out baby

 I can be the one that you want

 You can lean on me anytime baby

 For anything you want and need

 Oh I don't need a reason

 Memory or a season

 Everyday I will believe

 It's longer than always could be

 Oh it's further than the eyes can see

 More real than any dream could be

 Oh you and I, you and I

You and I we were familyForever love

 Oh forever love

 Forever mine, forever yours

 Forever love
