

4 Minus 3 Equals Zero

[George Strait](#)

You always said you love me
And I always believed you did
But now you say you're leavin'
And takin' both of the kids Well, four minus three equals zero
You're leavin', just don't add up
It's all over for me if you go
'Cause I'll be nothing without your love The babies are sleepin' in the bedroom
They don't know you're packin' their clothes
At least they didn't see me cryin'
When you said, "That's the way love goes" Well, four minus three equals zero
You're leavin' just don't add up
It's all over for me if you go
'Cause I'll be nothing without your love
