

E Talking (Rex the Dog Mix)

Soulwax

Names that sound familiar
Secret wounds from failure
Try and look into their eyes
A part of the weekend never dies
There's no tension in your dance
As you try and hold my hand It's not you it's the E talking
Closing in on the translation
It's not you it's the E talking
I'm not sure which part I'm playing Look and I come in between
Faces you have never seen
Silence re-alarms go wild
Rock stop paint me melt to lie
As you weep things work the same
But I can't recall your name It's not you it's the E talking
Closing in on the translation
It's not you it's the E talking
I'm not sure which part I'm playing Stranger at your own
Party feels like home
Late night phonecalls
Try to please all It's not you it's the E talking
Closing in on the translation
It's not you it's the E talking
I'm not sure which part I'm playing
