

# No Name (Live Version)

## Kittie

Indeed I will condescend  
Exhausting every trace to give you,  
What you asked for  
Everything you demanded you bleed right from me  
At last, I will be free  
And the phoenix rises  
Invasion of my last hope  
For once just know your place  
We are only human  
Everything you demanded you bleed right from me  
So weak you cannot see  
Corruption at its finest
