Just Me

Endless Blue

Lost my faith
You know I can't believe
When you told me you didn't want me to
I made a vow
I said that I would leave
Before we would resort to what children do

Do you feel it's true?
Do you feel like I do?
Do you feel it's true?
Do you feel like I do?

Watch the phone
Like I could make it ring
Even though I told you not to try
I made a point
To show them I'm so strong
In the darkness they couldn't see me cry

Do you feel it's true?
Do you feel like I do?
Do you feel it's true?
In the end I know just what I should do

Now I need to believe
It's just me
Cause I need some relief
It's just me

See the places
That we used to love
And I try to look the other way
You know I can't explain
To think that I'm above
All the sadness - just give me one more day

Do you feel it's true?
Do you feel like I do?
Do you feel it's true?

I just tried to show them what I should do

Now I need to believe
It's just me
Cause I need some relief
It's just me
And I need to be free
It's just me
(You fill me up you sew me up you make me whole again)
(You take my lust you take my love you kill my soul again)
Cause I need you to see
It's just me
(You fill me up you sew me up you make me whole again)
(You take my lust you take my love you kill my soul again)
