

# Just Me

## Endless Blue

Lost my faith  
You know I can't believe  
When you told me you didn't want me to  
I made a vow  
I said that I would leave  
Before we would resort to what children do

Do you feel it's true?  
Do you feel like I do?  
Do you feel it's true?  
Do you feel like I do?

Watch the phone  
Like I could make it ring  
Even though I told you not to try  
I made a point  
To show them I'm so strong  
In the darkness they couldn't see me cry

Do you feel it's true?  
Do you feel like I do?  
Do you feel it's true?  
In the end I know just what I should do

Now I need to believe  
It's just me  
Cause I need some relief  
It's just me

See the places  
That we used to love  
And I try to look the other way  
You know I can't explain  
To think that I'm above  
All the sadness - just give me one more day

Do you feel it's true?  
Do you feel like I do?  
Do you feel it's true?

I just tried to show them what I should do

Now I need to believe  
It's just me  
Cause I need some relief  
It's just me  
And I need to be free  
It's just me

(You fill me up you sew me up you make me whole again)  
(You take my lust you take my love you kill my soul again)

Cause I need you to see  
It's just me  
(You fill me up you sew me up you make me whole again)  
(You take my lust you take my love you kill my soul again)
