

This Place

Rancid

This place is a tale of terror
This place is a ghost town now
This place has lost its people
This place has lost its charm
The coals on the fire ain't burnin' no more
In the lake shore foundries
The workers misled by corporations
That knows no boundaries
This place is a tale of terror
This place is a ghost town now
This place has lost its people
This place has lost its charm
The land of liberty has been betrayed by
The monster corporations
The monster won't stop 'till
It lays waste to everything
