Bite The Bullet

Grain

YaaI understand your every, fear
Your every pain your every, tear
With every struggle you conquer
Turn heart to steel
And will to ironYou want more?
You'll get it
Determined ferocious
(What?)
Grit down and bite the bullet
When dare to unbind
Smash and redefineThe hate you feel is nothin', more
Than love you feel to win this, war
This battle that rages inside you
With bloodlust
You must unchain your shacklesYou want more?
You'll get it
Determined ferocious
(What?)
Grit down and bite the bullet
When dare to unbind
Smash and redefineLion hearts
Never give in
Unsatisfy
Every weakness
Lion hearts
Never give in
(Now)
Unsatisfy
(Fy)
Every weakness showYou want more?
You'll get it
Determined ferocious
Grit down and bite the bullet
When dare to unbind
Smash and redefine
