Face To Face

Cris Cab

[VERSE: 1]Staring at the crowd when you caught my eye
Time slowly ticking as I keep on standing by
Baby, If I eyes we can already know
I'm already thinking of another place to go
There's a lot of people in a trance tonight
Playing all the games trying to make you mine
Getting even closer to the finish line
Looking over here, I can give you a sign
[HOOK]Yeah, I'm going to take you to another place

Yeah, Yeah
Yeah, so you and I can meet face to face
Yeah, Yeah
There won't be no problems
You, me and the comets
Nobody will find us
Yeah, Yeah
Yeah, so you and I can meet face to face
[VERSE: 2]People see you staring thinking falling in love
There always watching and eyes just can't get enough
