Proud Evolution

Liars

A sense of dread in our heart
And we wish the sense would fly away
In the night we're finding out
It will playProud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
You should be careful
You should be careful
You should be careful
You should be carefulOur eyes can't tell how deep inside of the hundred billion potholes you can step in without knowing that you haveYou should be careful
You should be careful
You should be careful
You should be careful(Echoes and mumbling?)Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
You should be careful
You should be careful
You should be careful
You should be careful
