

Proud Evolution

Liars

A sense of dread in our heart
And we wish the sense would fly away
In the night we're finding out
It will play Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
You should be careful
You should be careful
You should be careful
You should be careful Our eyes can't tell how deep inside of the hundred billion potholes you can step in
without knowing that you have You should be careful
You should be careful
You should be careful
You should be careful (Echoes and mumbling?) Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
Proud evolution, Proud evolution
You should be careful
You should be careful
You should be careful
You should be careful
