

Sight Unseen

Petra

For so long I was dependin' upon
My senses and fences, I tried to ride on
And trusting in things that can never be seen
Was always a crutch on which others must lean
Thinking if I could see I would believe
Then somebody said believe and you will see Sight unseen, sight unseen
You have to take it sight unseen
Sight unseen, sight unseen
You have to take it sight unseen
Blinded by the darkness
Only faith can come between
Sight unseen, sight unseen Evidence built into every design
Led to conviction between every line
Faith is the key that can open the veil
To love incarnated and pierced with a nail
Listen my friends, have I got news for you
The nails in His hands and feet were meant for you Sight unseen, sight unseen
You have to take it sight unseen
Sight unseen, sight unseen
You have to take it sight unseen
Blinded by the darkness
Only faith can come between
Sight unseen, sight unseen Blinded by the darkness
Only faith can come between
Sight unseen, sight unseen
You have to take it sight unseen
Sight unseen, sight unseen
You got to take it sight unseen
Blinded by the darkness
Only faith can come between
Sight unseen, sight unseen
