10,000 Lightyears

Boney M.

10,000 lightyears somewhere out in space
They practice love and they know what it takes
No competition and no jealousy
Living in freedom and humanity10,000 lightyears away, lightyears away far from pain
Came to a place full of grace and of peace
10,000 lightyears away from our fearSuddenly it's ringing in my ears
Why is it now I don't wanna be here?
I feel like flow in that clock at the wall
God, how I wish that this dream would go on10,000 lightyears away, lightyears away far from pain
Came to a place full of grace and of peace
10,000 lightyears away from our fear10,000 lightyears somewhere out in space
(10,000 lightyears)
10,000 lightyears somewhere out in space
(10,000 lightyears)10,000 lightyears somewhere out in space
(10,000 lightyears)
10,000 lightyears somewhere out in space
(10,000 lightyears)
