Spiderbite

Wasteoid

Caine, CaineWhat was your name? Damn glad to meet ya
Never been to your place, but I know it
Twitching embrace, show me the spider
Try to disappear, back crack in the sofaCaine, Caine, CaineSlow poison working inside
Descending in shadow, cocoon me then bite
Caine spider, give to me pain
Got a caterpillar body and a butterfly brainCaine, CaineWhat day is today? Don't I know you?
Nineteen and bold, bitten in Houston
Out to the car, picked up a spider
Anesthetize your face, loser beside yaSlow poison working inside
Descending in shadow, cocoon me then bite
Caine spider, give to me pain
Got a caterpillar body and a butterfly brainSlow poison working inside
Descending in shadow, cocoon me then bite
Caine spider, give to me pain
Got a caterpillar body and a butterfly brainSpun monkeys on the railroad track
Take me to the Caine field
I walk along, pick my spiderbiteMy old man wonders where I'm at
I'm still a child, guess I keep trying to pay him backArrogance stains, threading your silk tomb
Steady she drain, spider digest youSlow poison working inside
Descending in shadow, cocoon me then bite
Caine spider, give to me pain
Got a caterpillar body and a butterfly brainSlow poison working inside
Descending in shadow, cocoon me then bite
Caine spider, give to me pain
Got a caterpillar body and a butterfly brainSlow poison working inside
Descending in shadow, cocoon me then bite
Caine spider, give to me pain
Got a caterpillar body and a butterfly brainSlow poison working inside
Descending in shadow, cocoon me then bite
Caine spider, give to me pain
Got a caterpillar body and a butterfly brain
