

Rock You All Around the World

Judas Priest

In the cities of the world
You know every boy and girl goes crazy to the beats of rock 'n' roll
And as the volume's soarin' all the crowd is roarin'
(Let it roll) Well, we don't care in the least 'cause our metal is a feast
But there's always someone tryin' to put it down
So we crank the music louder and our voices turn to power
With a wall of sound we'll blow them all away Rock you all around the world
(We're gonna rock, we're gonna rock you)
Rock you all around the world
(We're gonna rock, we're gonna rock you)
We're gonna rock
We're gonna roll, roll, roll
We're gonna shake you down
We're gonna lose control No one can hold us down just look around and see
This generation's gettin' up and breakin' free No one can hold us down just look around and see
This generation's getting up and breakin' free Rock you all around the world
Rock you all around the world
(We're gonna rock, we're gonna rock you)
Rock you all around the world Rock you all around the world
(We're gonna rock, we're gonna rock you)
Rock you all around the world
(We're gonna rock, rock, rock you)
Rock you all around the world
(We're gonna rock, we're gonna rock you)
Rock you all around the world
(We're gonna rock, rock, rock you)
Rock you all around the world
(We're gonna rock, we're gonna rock you)
Rock you all around the world
