

# The State of Gold, Pt. 1

**Matt Pond PA**

I might have a drink to be myself  
I hope nobody notices tonight what it takes to be real  
To truly keep this lamppost standing There's more than one way to live  
There's more than one way to love  
There's more than one way to give  
As I stagger to the state of gold I don't care if anyone carries me  
I don't care if anyone drops me  
Cause I know how to be alone  
At least I've learned how to be alone  
We might have to fight to get out  
That's the way I picture almost every night below stars  
Below the crown of heaven There's more than one way to live  
There's more than one way to love  
There's more than one way to give  
As I stumble to the state of gold I don't care if anyone carries me  
I don't care if anyone drops me  
I don't care where the money's hid  
Let the skin deep go deep diving in  
All I care about is your sentences  
And all the secrets you left down in them  
There's so much we'll never know  
All the vastness in the word hello  
There's more than one way to live  
There's more than one way to love  
There's more than one way to give  
As I stagger to the state of gold  
There's more than one way to live  
There's more than one way to love  
There's more than one way to give  
I won't stop climbing to the state of gold In the ether above our reach is the state of gold worth believing in  
In the ether above our reach is the state of gold worth believing in
